Western New York Rural Area Health Education Center	29	8	37
Wyoming Network for Telehealth (WyNETTE)	37	3	40

There are twenty eligible Health Care Providers that are participating in more than one Pilot Project. This report shows the urban\rural composition of each individual Pilot Project. Health Care Providers participating in more than one project are counted once for each project in which they participate.

Although accurate as of January 31, 2012, the reporting of seven projects with only one HCP is misleading. Four of the projects were instructed by USAC to assign the cost of the network design study to the lead entity (consortium), resulting in the data showing only one HCP receiving a commitment for those projects that had not yet implemented their networks as of January 31, 2012. For the remaining three projects, these projects filed a commitment request for only one HCP in order to meet the June 30, 2011 deadline to request at least one commitment.
